

WILL DELIVER FAREWELL SERMON

REV. J. C. JOHNS OF ST. MARK'S
EPISCOPAL CHURCH TO
DEPART.

Rev. J. C. Johns, pastor of the St. Mark's Episcopal church, will be heard in the pulpit for the last time in Tonopah this morning, and no doubt the occasion of his farewell will see the largest crowd that has been in the church for many a day. It is with regret that not only the members, but nearly everyone in Tonopah, will see the departure of Dr. Johns, for he stands most high in all stations. He has made himself a favorite with all classes, and he is the right man for a camp like this; in fact he is a divine who would be in place anywhere, for wherever he is placed he must command the respect and admiration of all with whom he comes in contact.

On Friday night the doctor was presented with a beautiful Elk pin in gold and diamonds. The presentation took place at the meeting of the lodge, and the presentation speech was made by District Attorney McCarran, who spoke most feelingly, and in the expression of his high regard for the departing clergyman, he voiced the sentiments of all who heard him. Dr. Johns made a fitting reply. He leaves on Thursday next for Jackson, Miss., where he will take charge of one of the oldest parishes in the State.

PERSONAL MENTION

W. H. Metson, of the firm of Campbell, Metson and Brown, was among the arrivals yesterday.

A. A. Davis and W. H. Conklin came in from Los Angeles and will remain for several days.

Fred Steen, clerk in the office of the Montana Tonopah, is off for the coast on his fall vacation.

Bert L. Smith, who has been in Reno and in the northern part of the State for several days past, returned to Tonopah yesterday.

H. A. McCraney, editor of the Manhattan Times, who has been away for some time, was a passenger on the train from Reno which arrived here yesterday morning.

Martin Cafferata, one of the owners in the Tonopah Club saloon, returned yesterday from a trip through the northern part of the State, and to San Francisco. He will open the new Tonopah Club about December 1.

Paul Revert and Al Ruffles, two prospectors, left for the Ubehebe mines yesterday morning, with an outfit of eleven burros. The burros are being taken to the mines to be used as ore carriers, and were labeled as such.

W. P. O'Meara and M. J. O'Meara, owners of the Silver Peak Valcaldia, left for the mine yesterday morning in their automobile. They were accompanied by W. I. Beauchamp of the Valcaldia Jr., and John Harrington, who has been made superintendent of the latter property.

General Manager J. F. Hedden of the Tonopah and Goldfield railroad, accompanied by Mrs. Hedden, will leave this morning for Los Angeles, in the Hedden private car, Mizpah. From Los Angeles Mr. and Mrs. Hedden will go to San Francisco, and will be away from Tonopah for a week or ten days.

H. E. Willis, assistant chief of the Brotherhood of Locomotive Engineers, will leave today for the East. Mr. Willis says that his stay has been a most delightful visit, and he regrets that he cannot remain longer. He was especially desirous of being here when the other heads of the railway organizations arrived, but business calls him away.

TURNING OUT THE BEST WORK

The bindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

Bees frequently fly three miles in search of honey-making supplies, and sometimes, when compelled to do so through scarcity of material, they double this distance.

GOLDREEF DISTRICT IS LOOKING GOOD

EASTERN CAPITALISTS ON WAY
TO INVEST IN THE
MINES.

Goldreef district, one of the old-time districts, is again coming to the front, and coming strong. Eastern capital has been interested in the country, and there are a number of wealthy men, some of whom are on their way hither, and others to follow, who are going to make of Goldreef, another Goldfield. The district is a tributary of Tonopah, and there are a great number of Tonopah men who have interests there as well as in Klondyke, which adjoins it. Among these are W. J. Douglass, B. F. Edwards, Zeb Kendall, Charles Kellhofer, W. J. Barlow, Jim Butler and others.

Charles Kellhofer has been in touch with the men of the east, and says that they are men who will do the most possible good to the country by their money and influence.

"They are people," said he yesterday, "who have had no interests heretofore in southern Nevada, but who have had their curiosity aroused by the stories they have heard, and the results that they have witnessed. No less than seventeen different groups have been acquired by them, and they will put the money into the ground, and I expect to see another Goldfield before a great while. When you have the ore in the ground, and the capital to take it out, it is pretty hard to see where failure can occur. Things have been moving along at Goldreef very quietly, for some time past, but while there have been big things going on, nothing has been said about them, for the reason that the parties interested did not wish to say anything until everything was settled.

"There is considerable work going on, and the ore is being opened up at every foot. Free gold can be found on the surface and good sized assays are taken from the surface for a radius of six miles, from Goldreef to Klondyke. Several mining experts who have been out there lately, have declared that it is the finest showing to be seen anywhere in southern Nevada.

"The assays will go from \$2 to \$17,000, and the ledges are exposed all over the district. In different places where work has been done on the ledges, high grade milling ore has been taken out. The ledges are in the white, pink porphyry, and all trend to the southeast in the direction of Goldfield. The district lies in the same range with Tonopah and Goldfield, and has the same formation, the ledges dipping and traversing the same ore zone. This is what leads experts to the conclusion that there will be just as many opportunities as there were, in the big camps, and why it will be one of the greatest camps in the state. There will be lots of activity in there before the snow flies, and it is among the possibilities that there will be shipments of high grade ore before that time.

"A townsite is now being surveyed, and big reports will be heard from the district. One of the experts for a syndicate of bankers went out there and could not get the Big Chief group quick enough. There have been seven groups of claims tied up by eastern millionaires, the representatives of whom will be here before the first of the month."

ACCUSED OF THEFT.

NEW YORK, Oct. 12.—George Browner, confidential manager of the stock exchange firm of James H. Olin & Co., is charged with the larceny of a check for \$2750. It is believed the firm's losses will reach \$100,000.

Don't forget the Bonanza's up to date bindery.

A TURN COAT.

The late Gov. Parsons of Alabama was one of those few southerners who espoused the Union cause during the Civil War. After the establishment of peace he was rewarded for his fidelity by being made provisional governor of his State.

At the time of secession, however, he was a member of the Alabama Legislature, and, to the indignation of his southern friends who had elected him to office, he voted against secession.

Soon afterward he wrote his wife that, as his supply of shirts was exhausted, he desired her to send him more as soon as possible. Mrs. Parsons, a zealous southerner, answered in a note remarkable for its brevity and point. Without prelude or formality she wrote:

"You have turned your coat; you may turn your shirt."—Philadelphia Ledger.

SHOWING SIGNS OF RENEWED LIFE

OLD LONE MOUNTAIN DISTRICT
TAKES ON MUCH
ACTIVITY.

The old Lone Mountain district is showing signs of renewed life and activity, and not only that, ore is showing up in larger quantities and better values. The Unknowna district, spoken of by Mr. Lucey, where assays ran as high as \$455, is in Lone Mountain, and so is the property of the Nevada Silver Lead Mining Company.

Charles Kellhofer, superintendent of the latter company, was in from there yesterday, and he says that the men are just starting to sink on the ore, which increases in width and value as it goes down.

"We are on the same side of the mountain as is the Nevada Alpine, which has been paying dividends for years. We are seven miles from the railroad. The Nevada Alpine lies to the north, the Interstate to the west and the Paymaster to the east, and the property is seven miles from Silver Peak.

"The contact is dolomite and quartzite, the same as the famous Mollie Gibson mine in Aspen, Colorado, which has taken out, up to date, \$65,000,000. Our shaft is down five feet, and is five feet wide, while the ledge is twelve feet in width. Assays taken from the bottom of the shaft average 27 per cent in lead, 2 1/2 per cent in copper, and \$14 in silver. A picked sample went 71 per cent in lead and \$40.76 in silver, with a trace of copper. Several other samples averaged from \$30 to \$70.

"The ledge is exposed on the surface for two miles, the outcroppings in some places extending twelve feet above the surface. We have another ledge which parallels this, forty feet from it, which is from thirty to sixty feet wide. Where we have sunk for seven feet, assays at the bottom go \$7 in silver, 3 1/2 per cent lead and 3 per cent in copper. One sample from the shaft went 17.1-8 per cent copper, \$11 in silver and 2 per cent in lead. Float has been picked up on the mountain below the ledge which went as high as \$600. Goldfield parties who have been out there recently have expressed the highest opinions of the property."

CHICAGO WOMAN VICTIM OF THUG

CHICAGO, Oct. 12.—Miss Jennie L. Stevens, formerly organist of the Wesley Methodist Episcopal church, was found dead today at the bottom of an eight-foot cofferdam at North Halsted street and the Chicago river. It is believed the woman was attacked and strangled to death by a man to whom she appealed for directions that she might find her way home late last night. Her mouth was cut, swollen and blackened, her clothing disarranged and marks on her throat seem to indicate that she had been strangled to death.

The last seen of Miss Stevens alive was last night, when she approached O. J. Hogbaum in a nervous and excited manner and asked the way to Thirty-ninth and Halsted streets. Hogbaum said that while they were talking a man stepped up and offered to show Miss Stevens the way, and they walked off together. The police theorize that this man took the woman down by the water and there attacked her.

Miss Stevens was a close friend of Mrs. Bessie Hollister, the choir singer of the same church attended by Miss Stevens, who was murdered by Richard Ivens. Following the murder of Mrs. Hollister, Miss Stevens became mentally deranged. She worried constantly about the death of her friend. The circumstances surrounding her death are similar in many ways to the murder of Mrs. Hollister.

It is a well known fact that persons living in the Pine forests do not suffer from kidney diseases. One dose of Pineules at night usually relieves backache. 30 days' treatment \$1.00. Your money refunded if not satisfied. Sold by Tonopah Drug Co.

ELEVATOR DESTROYED.

MADISON, Ill., Oct. 12.—The Clover Leaf grain elevator, containing 25,000 bushels of grain, was destroyed by fire today. Several small cottages, together with the coal chutes of the railroad company, also were destroyed. The loss is estimated at \$100,000.

Mothers with little children need no longer fear croup, colds or whooping cough. Bees Laxative Cough Syrup tastes good. It works off the cold through the bowels, clears the head. Guaranteed. Sold by Tonopah Drug Co.

REPRESENTATIVE CONDUCTORS HERE

THIRD VICE-PRESIDENT CLARK
IS INVESTIGATING THE
LATE STRIKE.

W. M. Clark, third vice-president of the Railway Conductors, has been in the city for the past two days, investigating the matter of the late strike, and the part taken in it by his men. He called upon Superintendent Hedden yesterday and the two had a long conference over the matter. What passed between the two men neither of them would say for publication, further than the conference was very satisfactory.

"Mr. Clark made a social call," said Mr. Hedden, "and we had a very pleasant chat. I found Mr. Clark a very interesting man and a man of wide experience and broad ideas."

"The strike was a deplorable occurrence," said Mr. Clark, "but, perhaps, it was not without its benefits. The men were hasty, and there is now a better understanding between them and the railroad officials. And there is and will continue to be a better feeling on the part of the men toward Mr. Hedden in the future. They did not know their superintendent as I have learned to know him in the talk that I have had with him. Mr. Hedden is a very just and reasonable man. He intends to be fair, and if I were on the road tomorrow I would not wish to be under a better man. But he also knows what is his due, and he will insist upon having it. You can say one thing to the people of Tonopah, and that is that they need have no fear of a recurrence of a strike on the road for many a day to come."

Mr. Clark is a broad-gauged man, built somewhat on the lines of Assistant Grand Chief Willis of the Brotherhood of Locomotive Engineers. He has a very pleasing personality, and is not afraid to talk for fear of making mistakes. He knows what he wants to say, and he knows how to say it. He is a great favorite with the conductors, and every one of them has been vying, one with the other, in his entertainment.

Last night the conductors, or rather a few of them, entertained their chief at dinner, and then escorted him through the Montana Tonopah mine and the new mill. He is very much pleased with his reception in Tonopah, although regretting the mission that brought him. An effort will be made to have Mr. Clark meet with the Tonopah business men as did Mr. Willis.

WILL ATTEMPT TO PROVE MURDER

DECATUR, Ill., Oct. 12.—Assistant States Attorney Mitchell, of De Witt county, opened the actual trial of Fred and Fay Magill this morning when he began outlining the State's case to the jury. He spoke briefly.

According to his opening statements, the prosecution will endeavor to prove that Fred Magill murdered his first wife, Mrs. Pet Magill, by strangling her after he had given her chloroform, and that his present wife, Mrs. Fay Graham Magill, was an accessory before the fact.

The State will also seek to show that the Pet Magill letters were forgeries, and will place particular emphasis upon what is known as the "seventh" and "eighth" letters.

The seventh was the one in which Magill was urged to marry Fay Graham, and the eighth was the one last brought to light, purporting to have been an acknowledgment by Pet Magill to her parents that she was in love with another man than her husband.

Judge Cochran has ordered the witnesses for the defense to be on hand Monday at 9 o'clock.

OPENING OF THE THEATRICAL SEASON

AYLESWORTH BRINGS "JOSHUA
SIMPKINS" COMPANY TO
TONOPAH.

The opening of the theatrical season for the fall and winter under the management of Aylesworth, will take place at the Eagles' Pavilion on next Wednesday night. The initial production will be "Joshua Simpkins," which is a pastoral comedy drama, with a number of clever specialty skits and some very strong scenes. This is the play in which the wonderfully realistic sawmill scene is introduced. The son of Uncle Josh is lashed to a log, with a genuine circular saw rapidly revolving, while the log and the victim slowly but surely approach the sharp teeth. It is very thrilling and is only one of the striking bits of realism in the play.

SCANDAL OVER ATTEMPTED SUICIDE

SEATTLE, Wash., Oct. 12.—C. B. Bussell, a millionaire realty dealer and one of the men who cleaned up a fortune in tide lands as a result of the Union Pacific's big buy here last year, is involved in a scandal over the alleged attempt at suicide, in North Yakima, of Violet Ball. Bussell was in the woman's room when she attempted to take strychnine and sent hurriedly for physicians, who saved her life. The woman was made correspondent in divorce proceedings Mrs. Bussell brought three years ago, but this fight was dropped.

Miss Ball was brought to Seattle today and is under the care of physicians. Bussell claims the woman made a mistake and took the poison for headache, and that he happened in her room by accident to carry her grips to the train after being informed she would leave at the same time he did.

Journals, cash books and ledgers—just the thing the merchant needs—best that can be made. For sale at the Bonanza office.

The most valuable fisheries belong to the United States, Great Britain and Canada, in the order named.
